# The NGOs coalition and its objective

- A partnership of NGOs that are active in nature protection in Romania
- The partnership established in October 2003 has now 36 organizations that are members
- **OBJECTIVE:** to contribute to the effective implementation of Natura 2000 in Romania and to support the biodiversity conservation actions inside and outside the protected areas

# Membership and decision

- Members are 36 NGOs that carry out relevant activities related Natura 2000
- Coalition structure: General Assembly, Coalition Board (7 members), Secretariat, email discussion list and web page.
- The members have agreed the Coalition Principles and:
  - have experts in biodiversity issues
  - have experience in lobby activities
  - have experience in public awareness and education
- The email list is essential for fast decisions. In between General Assembly, the Board is taken the major decisions regarding Coalition actions.

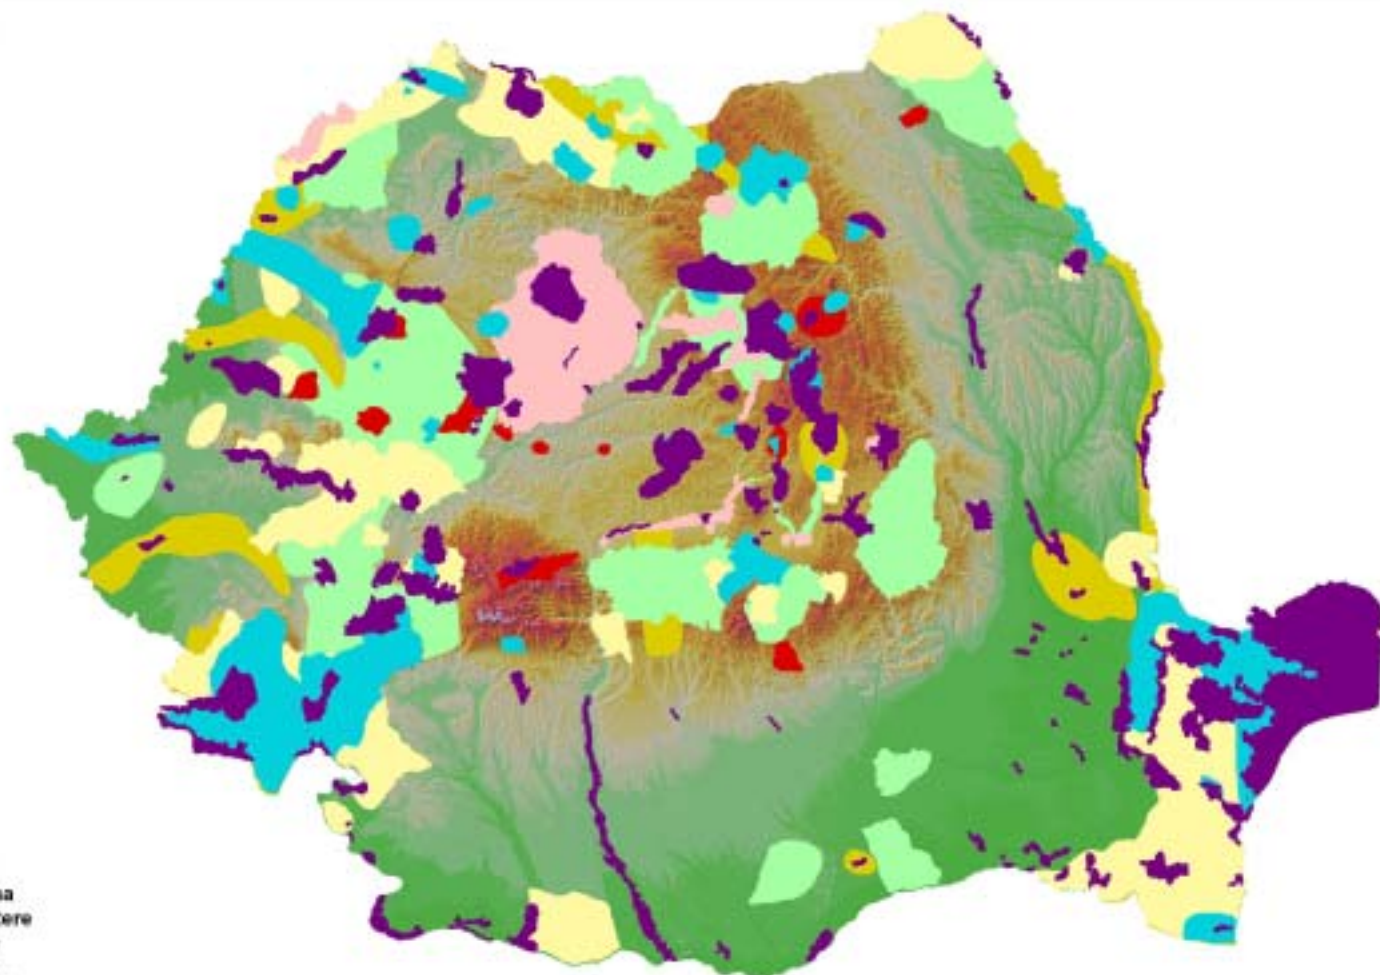

# Priorities and strategic actions

- **The main priority is to determine the Romanian Authorities to agree that Natura 2000 is essential for nature conservation in Romania**
- Date base related to biodiversity experts and identification of Natura 2000 sites
- Coordination of the experts network through a National Working Group
- Ensuring the financial support for sites identification and standard forms preparation until January 2007
- Enhancement of existing governmental and non governmental resources by establishment of an Intersectorial Working Group.

**THE POLITICAL ENGAGEMENT AND COLLABORATION BETWEEN AUTHORITIES AND CIVIL SOCIETY ARE ESSENTIAL**
